

Forklift Spreader Bar

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader company in the globe. They are a dedicated producer of spreaders utilized for many various applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in house by making use of all of the most up-to-date FEM tools and CAD systems. The ELME business presently employs over one hundred twenty five personnel. Their spreaders are supplied to reach ship-to-shore cranes, stackers, straddle carriers, lift trucks, gantry and quayside all-around the world.

The product series of ELME include numerous spreaders utilized for different container and trailer handling operations. Some of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks as well as a huge range of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In 2008, they made more than one thousand one hundred fifty spreaders by means of utilizing top quality components in order to guarantee dependability and top standards while offering competitive prices. Major features of ELME comprise design simplicity, market feedback and inventive modular spreader concept.
