

Meritor Parts

Meritor Part - Meritor is a leading global supplier which is proudly founded on a 100 year custom of quality and service. They focus on various integrated systems, modules and components to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor values the requirements of all their customers to guarantee their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their international operations. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 countries and hiring more than eleven thousand two hundred people, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

By only hiring future focused workers, Meritor strongly feels these top-caliber individuals will be able to rapidly adapt to changing environments and exhibit the commitment and performance needed in order to attain results in the competitive materials handling trade. The business empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides all of their staff various possibilities for personal and professional growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, braking and suspension systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the needs of all their global engineering personnel.

The Quality team at Meritor is a dynamic and customer-focused group that is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

They have their supplier network which is specifically located to be able to support the development of the business. Every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making within each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business processes and implement lean methods.
